

Garry Downs
Partner
Bell Gully

Garry Downs is a partner at Bell Gully with over 25 years experience in commercial law with leading expertise in infrastructure and energy projects. He has led the Bell Gully team on a number of key projects including the TCC and Southdown power stations. His recent experience includes the 130 MW Nga Awa Purua geothermal power station which is now under construction in Taupo and acting for Auckland Regional Holdings on the "tank farm" waterfront redevelopment in Auckland.
